

Itasca

Phasar. Buy Low. Live High.

The Motor Home Conceived When Gas Was \$1.60 A Gallon.

The Phasar® actually gets better mileage than some cars. But it can also give a 6-foot adult enough room to stand up.

It has front wheel drive, Bosch fuel injection, and microprocessors that control ignition, timing, fuel/air mixture and shifting of the automatic transmission.

With all its advanced automotive features, it's no wonder this unique vehicle is one of the best selling motor homes in America.

It might not look like a motor home. And it certainly drives more like a mini-van. But the compact Phasar gives you all the comforts of home.

A fully equipped galley. Space-saving bathroom. Big picture windows. A dinette table that converts into an inviting double bed. Reclining bucket seats. A wardrobe closet. Even a 20,000 BTU forced air furnace.

Yet, for all its luxuries, the Phasar isn't just a weekend vehicle. It zips through city traffic. Parks easily. Hauls all the groceries — or kids — you care to carry.

You might buy a Phasar as a second car. But it's so much fun to drive, don't

be surprised if you end up leaving your first car in the garage.

With a Phasar, you can have a tailgate party on your lunch hour, and then convert it neatly into a guest bedroom for the night.

Part of the fun of driving a Phasar is its futuristic good looks. This year, we made the front end sleeker and the rear window bigger. It will still draw attention wherever it goes.

But beauty is more than skin deep. The Phasar has front disc brakes and McPherson strut suspension. Rack and pinion steering. Electronic ignition. A brake system that "reads" your weight and balances the braking between front and rear.

If you haven't driven the Phasar yet, you're in for an enjoyable experience. In fact, here's what *MotorHome* magazine had to say after their test drive: "You can't help but be impressed with the vehicle's amazing stability. It is virtually immune from the buffeting of

passing trucks, and it corners, even at high speeds, like a sports car."

Drive one yourself. If a Phasar won't make you leave home, nothing will.

In the galley and elsewhere, our designers took full advantage of every nook and cranny.

The functional dinette converts into a full sized bed.

For added flexibility, our lounge chairs convert into a surprisingly roomy bed.

Phasar's unique, expanding bathroom borrows space-saving ideas from Pullman cars.

The 220i offers a special flair and plenty of additional standard features.

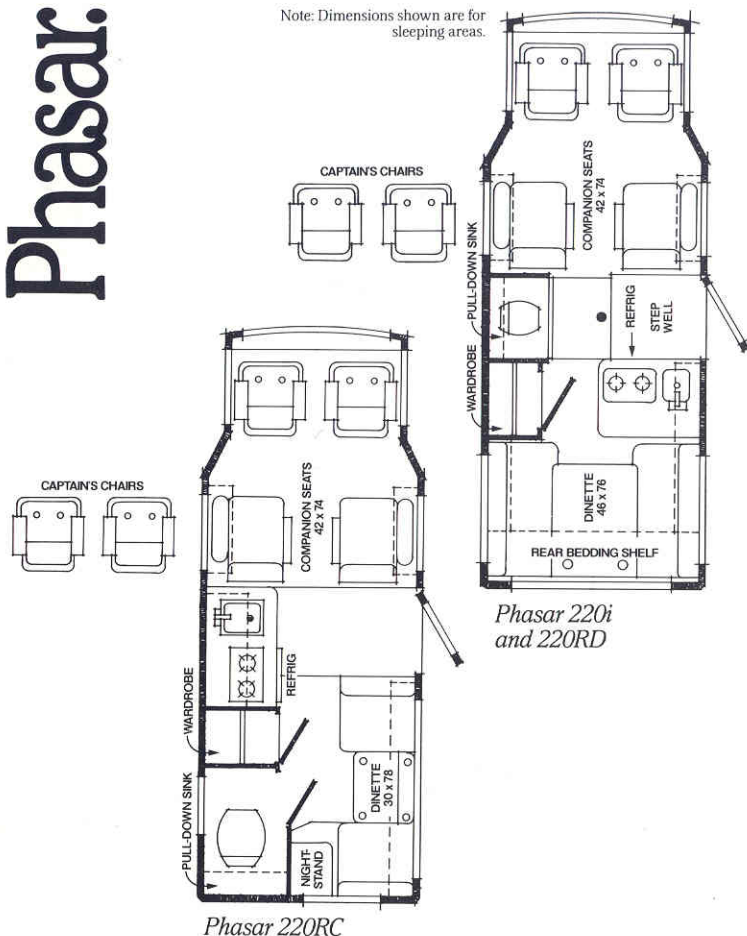

The interior of the 220i creates a stylish environment with fine upholstery and specially designed cabinetry and counters.
